To install a residential drive off _____, a swale or [pipe will be needed for water flow along the roadway. The driveway shall be graded so water flows into the swale, and not onto the roadway (as approved plan). If driveway is not paved within five years of the above date a permit will be required to pave the driveway, The Borough will be notified twenty-four hours prior to paving. The Borough, may at any time revoke and annul the permit for non-performance of, or non-compliance.
